

EKOS Research Associates poll

The field dates for this survey are April 27 to May 4, 2022. In total, a random sample of 771 Canadians aged 18 and over responded to the survey (via IVR technology). The margin of error associated with the total sample is +/- 3.5 percentage points, 19 times out of 20.

Please note that the margin of error increases when the results are sub-divided (i.e., error margins for sub-groups such as region, sex, age, education). All the data have been statistically weighted by age, gender, and region to ensure the sample's composition reflects that of the actual population of Canada according to Census data.

Of the following candidates, who would you prefer to see as leader of the Conservative Party of Canada?

As you may know, the convoy protests were protest movement made up of truckers and other demonstrators who, among other things, blockaded several Canadian cities and border crossings with the United States in February 2022. The protest was sparked by vaccine mandates for cross-border truck drivers, but later grew to a push for an end to all pandemic restrictions. To what extent do you support or oppose this movement?
